A MESSAGE FROM DR. GROUP,
DC

The world needs coaches trained in the *root cause systems.*

Welcome. I am so grateful you are here, and that something in this work has called you.

We are entering a time when more people than ever will be looking for guidance rooted in natural health principles and true root cause healing.

I created the Board Certification in Natural Health Coaching because I believe every community deserves someone who can hold their hand, walk them through the healing process, and teach them how to reactivate their own *self-healing mechanism*.

For over thirty years my mission has been the same. Uncover the root cause of dis-ease, and empower others to reclaim their health, naturally and intentionally. This program brings together decades of research, ancient wisdom, and proven protocols so you can heal yourself, and become a guide for others.

If you have ever felt called to get to the root of healing for yourself, your family, or your community, this may be the next step you have been waiting for.

In health and happiness,

Dr. Edward Group, DC

YOUR QUESTIONS, ANSWERED

Frequently Asked *Questions*

Our support team gathered the questions we hear most, so you can begin with clarity and confidence.

How long will it take to complete the certification?

The NHC is self-paced. Some finish in three to six months, others take a year or more. With the reading, videos, and coursework, the certification calls for an estimated minimum of 1,000 hours of study and application. There is no race to the finish. Healing is a journey.

Is there a right age to begin?

There is no right age. Our students range from 18 to well into their 80s, all learning side by side. Some are building a career, some are supporting a loved one, and many are walking their own healing journey. If you have a desire to learn and to help others, you will fit right in.

Will I learn how to be a successful coach?

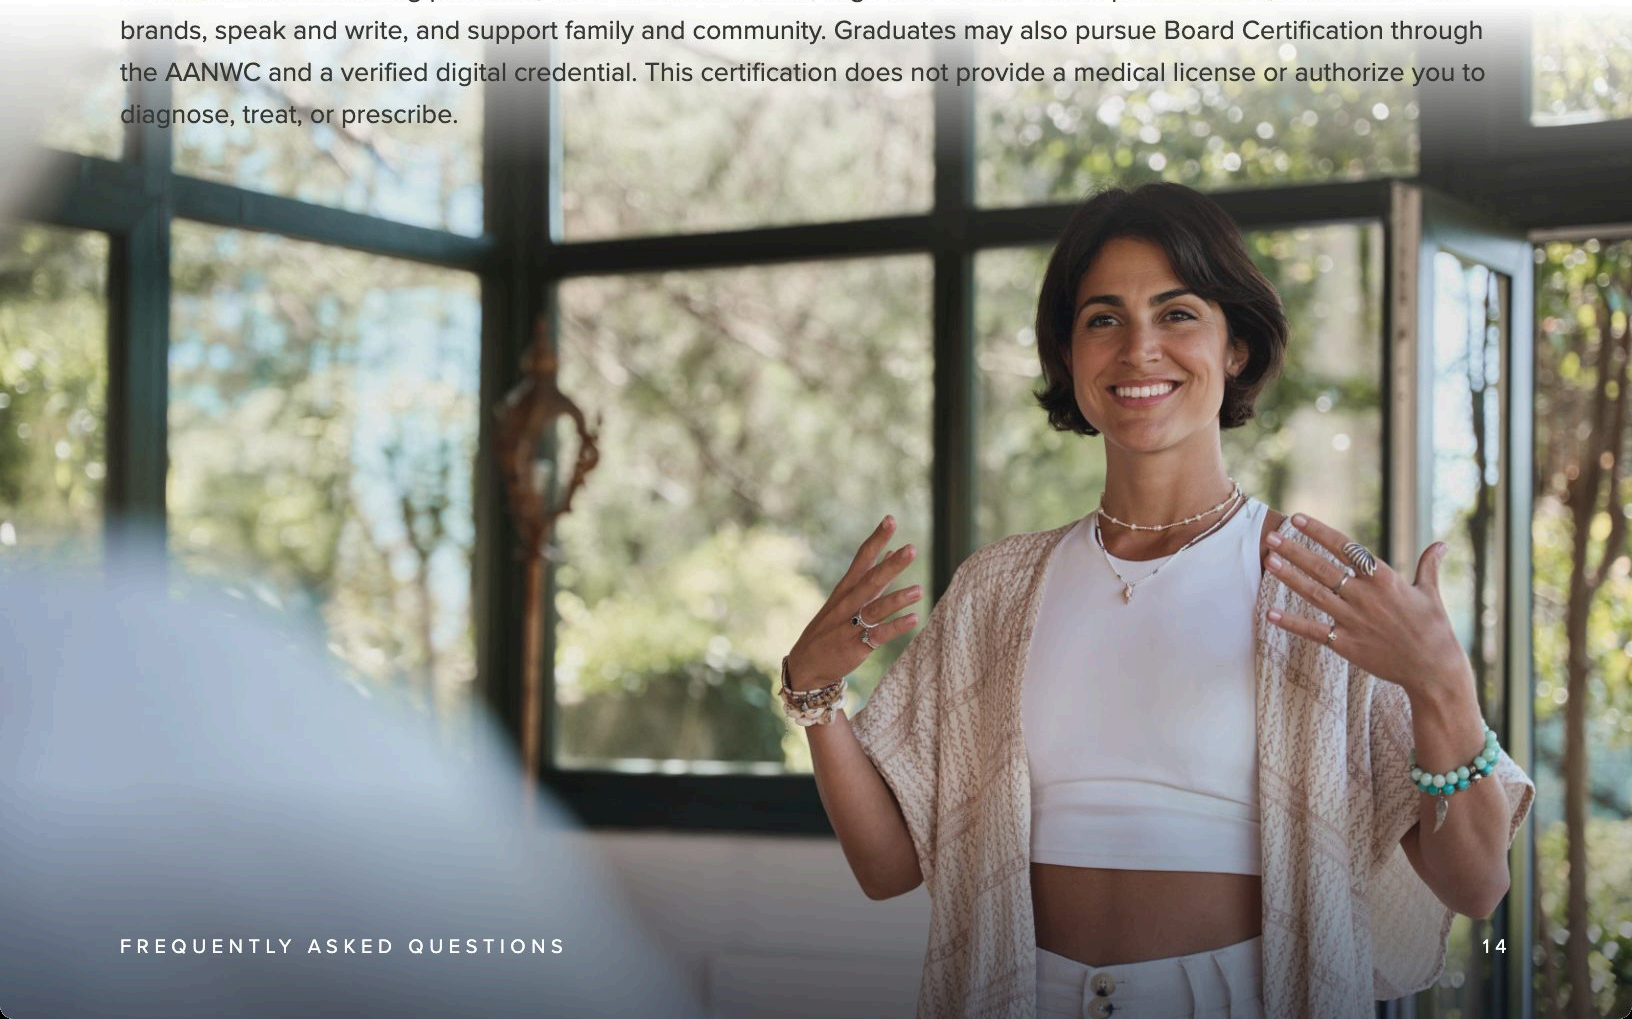

Yes. Alongside root cause wellness, detoxification, and nutrition, you will build the skills at the heart of good coaching: listening well, building trust, and meeting people where they are. Practical business training covers client sessions, pricing, marketing, and building your online presence.

I am already a health professional. How would this benefit my practice?

Dr. Group, DC teaches what no one else teaches. This certification expands your practice with a root cause foundation that complements both conventional and holistic disciplines, so you can educate and support your clients with greater confidence and lasting impact.

What can I do with the certification?

Graduates build coaching practices, work in wellness retail, align with natural health professionals, create their own brands, speak and write, and support family and community. Graduates may also pursue Board Certification through the AANWC and a verified digital credential. This certification does not provide a medical license or authorize you to diagnose, treat, or prescribe.

Do you offer financing or payment plans?

We do. For U.S. residents, financing is available through Affirm and PayPal. For international students, or U.S. residents who prefer it, we offer a worldwide monthly payment plan at \$329 per month directly through GHI, with no credit check and instant approval. Scholarships are also available at certain times.

I do not live in the United States. Can I take the certification?

Yes, absolutely. The Global Healing Institute serves a truly global audience, with students learning from all over the world. The worldwide monthly payment plan is designed for international students.

Can I get a refund if it is not the right fit?

You may cancel within 14 days of beginning and receive a 100% refund. This applies to the first payment, and to less than 10% of your content being viewed. To request a refund, contact GHI customer support and we will guide you through the process.

What makes Dr. Group's approach unique?

The entire certification is built around a root cause philosophy. The body was designed to heal itself. Everything blocking that healing lives in the internal or external environment, and the self-healing mechanism reactivates when the toxicity is cleansed. You learn to trace health challenges back to the four instigators: the toxic gut, the toxic liver, parasites, and chemicals and heavy metals.

STILL HAVE A QUESTION?

Our support team is here Monday through Friday, 9:00 a.m. to 5:00 p.m. CST, and we would love to help you take the next step.

YOUR NEXT STEP

Every community deserves a *root cause coach*.

Your body was designed to heal itself, and everything blocking that healing is in your internal or external environment. Now you can learn to remove it, for yourself, and for those you are called to serve in root cause healing.
